TURKEY ROP SUMMARY  
1957

This summary includes the records of candidate flocks maintained in accordance with the provisions of the U. S. Record of Performance classification of the National Turkey Improvement Plan. These records are published to give official recognition to the performance of the birds entered in USROP and to provide a means of evaluating the flocks as sources of breeding stock. The records for the years 1956 and 1957 are included so that a more accurate appraisal may be made than is possible when only one year's records are considered.

The following information is given for each flock under USROP supervision during 1957:

- (a) Year records were compiled.
- (b) Total number of young hens of a particular variety on the farm.
- (c) Number of USROP candidate matings.
- (d) Number of young hens entered in USROP.
- (e) Number of young hens meeting the USROP requirements.
- (f) Percentage of young hens entered meeting the USROP requirements.
- (g) Average rate of (percentage) egg production of all candidate hens.
- (h) Average hatchability of all eggs set from all the candidate hens.
- (i) Pullorum-Typhoid Class.

STATE TURKEY ROP SUPERVISORS

The production records of TURKEY USROP breeders are submitted to and checked by State ROP Supervisors whose names and addresses are as follows:

California	-	J. M. Davison, California Poultry Improvement Advisory Board, 1107 Ninth Street, Sacramento 14
Kentucky	-	John W. Tuttle, Kentucky Poultry Improvement Association, Lexington
Missouri	-	Harold Canfield, Missouri Poultry Improvement Association, Columbia
New Jersey	-	B. K. Messersmith, New Jersey Department of Agriculture, Trenton 25
Ohio	-	Howard E. Wildey, Ohio Poultry Improvement Association, Columbus 10
Oklahoma	-	Carl Wick, State Board of Agriculture, Oklahoma City 5
Oregon	-	Earl Reitsma, Oregon Department of Agriculture, 208 Poultry Bldg., Corvallis
Utah	-	Don W. Thomas, Utah Poultry Improvement Committee, Logan
